**Subject:** Pohatcong OU3 - request for Split Sample fast TAT with CLP  
**Date:** Thursday, February 22, 2018 1:01:24 PM

---

Hi Bob,

The procedure for getting an expedited TAT requires the RPM to pass the request through to the branch chiefs as shown here:

EPA OSC/RPM -> Branch Chiefs in ERRD -> Branch Chief (DESA/HWSB) with cc to Section Chief, Phil Cocuzza -> Staff in DESA/HWSB/HWSS (Christina Leung, Adly Michael, Agustin Aoanan, Cheng-Chang Chen and Jen Feranda).

We are requesting expedited TAT (2-day prelim and 7-day unvalidated data) for these samples to be able to check on the PRP's field laboratory data that they will be processing on a daily basis.

Christina Leung has been given a heads up on this request.

Please let me know if you have any questions.

Thank you!  
Michelle Granger, RPM
